Formaldehyde

All of the Tonik Furniture products listed above are currently Green Guard Certified to meet the formaldehyde emissions requirement. They have been tested in accordance with ANSI/BIFMA standard method.

Per- and Poly- Fluorinated Compounds (PFC's)

PFC-free fabrics are available. Some fabrics may contain PFC's, so customers must specify PFC-free fabrics. Customers are responsible for COM fabric treatments and chemical contents.

Polyvinyl Chloride (PVC's)

All products listed are 100% PVC free. Customers must specify PVC-free fabrics. Customers are responsible for COM fabric treatments and chemical contents.

Antimicrobials

Tonik Furniture does not add any antimicrobial chemicals to any of our products. Antimicrobial-free fabrics are available. Some fabrics may contain antimicrobial chemicals, so customers must specify antimicrobial-free fabrics. Customers are responsible for the COM fabric treatments and chemical contents.

Flame Retardants

All molded products listed are free of flame retardants. For upholstered products, optional versions are available that are TB133 compliant – which may contain flame retardants. Customers are responsible for the COM fabric treatments and chemical contents.
